

Bulls Kid Nation Youth Hoops Health and Safety Protocols

The United Center announced 2/28/22 that for all events after February 28, it will be easing entry restrictions to allow all event attendees to present either proof of full vaccination or a negative COVID-19 test to gain access to the arena. In addition, while still recommended, masks will now be optional for fans attending United Center events. **In accordance with this announcement and for consistency for events, all Bulls Kid Nation Youth Hoops camps and clinics will require the same proof of full COVID-19 vaccination or a negative test within 72 hours of the event and optional masks for participants and spectators age 5 and older at all camp/clinic locations including and outside of Chicago.**

As you are registered for an upcoming Youth Hoops camp or clinic, this means:

- Participants and spectators age 5 and older will be required to show proof of full vaccination or a negative COVID-19 test within 72 hours of the event.
- Masks, while recommended, will be optional for participants and spectators.

Proof of vaccination can include a CDC COVID-19 Vaccination Record Card or an official immunization record from the jurisdiction, state, or country where the vaccine was administered or a digital or physical photo of such a card or record, reflecting the person's name, vaccine brand, and date administered.

Spectators

Mask Policy

- Although recommended, masks will be optional.
- Extra masks will be available for those who need them.

Social Distancing

- Spectators will be allowed to stay during the clinic, but we ask that social distancing be accommodated when possible.

Participants

General Protocols/Rules

- Stations will be spaced out to encourage social distancing at each station.
- Hand sanitizing stations will be placed throughout the court.
- All participants will need to bring their own water bottles. No sharing of water bottles or cups will be permitted.
- If anyone is showing signs of illness the day of the program, we will ask that they refrain from coming to camp and a full refund will be given.
- If someone begins to feel ill or show signs of illness after arriving at the program, we will move them to an isolated spot within the venue if no parent is present and the parent will be

contacted immediately. If a parent or guardian is present, we will move the child showing symptoms through a path not near others to exit the building.

- Once the individual has been isolated or has left the building, affected areas of the arena will be closed until it can be sanitized. Groups will not be allowed to use the areas until it is sanitized and everyone will be moved to other areas of the arena to continue the program.
- If a positive test is confirmed, local health authorities will be notified to begin the contact tracing process. Bulls Youth Hoops will work in coordination with local health officials to assist in any areas of the contact tracing process.

Mask Policy

- Although recommended, masks will be optional.
- Extra masks will be available for those who need them.

Social Distancing

- Social distancing will be enforced, when possible, throughout the clinic by coaches and staff.

Coaches/Staff

Mask Policy

- Coaches will be wearing masks throughout the duration of the clinic
